Matrix is a modern HTML-based MLS system that places equal emphasis on performance and functionality. With blazing fast search results and easy-to-learn shortcuts, Matrix saves time and makes you more efficient. Best of all, Matrix works with virtually all computer operating systems, web browsers, mobile devices and tablets, so you are free to work where and how you want.

MLXchange, Fusion and Matrix will run parallel until the last week of February 2015. We have received great feedback from over 1,700 GSREIN members that have already attended a Matrix training session. The ability to add or edit listings in Matrix will not be available until the Matrix cutover in February.

Please remember the Matrix has been built and customized from the ground up. Therefore if you go to an area and it has missing fields, producing incorrect data or the link does not work please send the issues to MyMLS@nomar.org Matrix is being built to specifically fit the needs of our members, your feedback is vital to ensuring that happens.

For tutorials and step by step instructions on how to use the features of Matrix please visit the "HELP" tab located on the top right hand section on the Matrix home screen. For more information and resources also visit the [MLS Matrix Section](#) of NOMAR.org.
